

HUMN 3015 AUSTRALIAN HISTORY AROUND US

Credit Points 10

Legacy Code 102516

Coordinator Helen Bones (<https://directory.westernsydney.edu.au/search/name/Helen%20Bones/>)

Description Historians are detectives, searching for clues and unravelling the puzzles of the past. A walk down your local street holds many clues about the history of a local area - from the name of the street, the architecture of the buildings, the trees planted by the road, even the new building that indicates a recent change. Local studies are used as the foundation for socio-economic studies across many disciplines while an understanding of local history contributes to establishing personal and community identities. In this subject students will learn research skills to uncover the lives of people from the past, re-imagine familiar places and consider events long forgotten that happened in the streets of their suburbs. The final assignment is a chance to turn these discoveries into a new history for their community.
