

BUSM 1019 MANAGEMENT FOUNDATIONS

Credit Points 10

Legacy Code MG102A

Coordinator Ian Caddy (<https://directory.westernsydney.edu.au/search/name/Ian Caddy/>)

Description Management Foundations' provides an opportunity for students to understand the linkage between organisational processes and managerial practices. The aim of the subject is to identify the dynamic nature of managerial practice in changing social, economic, technological and global environments. The subject investigates management theory, roles, and managerial skills and addresses the ongoing needs of decision making, quality management and worksite safety management. This subject is offered specifically to the School of Computing, Engineering and Mathematics and the School of Social Sciences and Psychology.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Examine the complex nature of organisations and management.
2. Analyse the environments of organisations by identifying the dynamic nature of managerial practice in changing social, economic, technological and global environments.
3. Assess the relationship of organisations with their stakeholders in the context of social responsibility and managerial ethics.
4. Evaluate decision-making models and processes and the effect of risk on decision making.
5. Evaluate planning processes and systems and how organisational planning is affected by environmental uncertainty.
6. Examine the integrative organisational role of management in the context of strategic leadership.
7. Examine professional standards of workplace behaviour and communication.
