The Bachelor of Graphic Design (Pathway to Teaching Secondary) is a three-year degree specially designed to lead into the Master of Teaching (Secondary), an accredited postgraduate teaching qualification. Together, the two degrees provide direct access to a teaching career and improved prospects for career advancement.

With an emphasis on studio-based practice, you will study areas such as image design, typography, layout design, branding, design history, research methods, and web-based design. From year two, you will develop a focus on digital design, photography, and graphics technology, enabling you to develop two teaching disciplines, Design & Technology and Graphics & Multimedia Technology. In year three, you will also study an Education Studies – Secondary Teaching minor, where you will gain an understanding of contemporary education issues, teaching and learning. Students who complete this degree are eligible for 40 credit points advanced standing (the first semester of the M Teaching (Secondary) or M Teaching (Secondary) STEM). As well as being equipped with the necessary elements of an initial teacher qualification, you will be prepared for professional graphic design practice and associated alternate employment opportunities in design.

The first year of this program is delivered by Western Sydney University The College, as an agent of Western Sydney University, via extended face-to-face hours in smaller learning environments. A Diploma in Design exit point is also available at the end of the first year of the program.
