2. Develop an understanding of the National Safety and Quality Care framework and the implications for nursing practice in relation to caring for people who experience an acute exacerbation of a chronic condition.
3. Justify the selection and prioritisation of nursing strategies to provide safe effective and evidence based nursing care for people who experience an acute exacerbation of a chronic condition.
4. Assess appropriate, safe, effective, and evidence-based treatments for people who experience an acute exacerbation of a chronic condition.
