Equivalent Subjects NURS 3020 Leadership in Nursing (Advanced)

Restrictions Students must be enrolled in 4693 Bachelor of Nursing (Advanced).

Assumed Knowledge

Professional communication, roles and responsibilities of the Registered Nurse, ethical and legal frameworks for practice, behavioural and social sciences, critical thinking and problem-solving skills.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Evaluate contemporary, emerging and innovative clinical leadership approaches in nursing practice.
2. Differentiate between leadership and management in relation to clinical nursing practice.
3. Critically discuss the importance of leadership development and clinical leadership styles for nursing practice.
4. Appraise professional and organisational factors that facilitate or inhibit effective leadership in healthcare.
5. Critically evaluate effective leadership in provision of optimal person-centred care in clinical nursing practice.
6. Critically appraise leading and managing change and innovations in contemporary healthcare contexts.
7. Assess the value of self reflection, self assessment, critical thinking and feedback for effective clinical leadership in nursing contexts including the new graduate context.
8. Critically discuss effective building, motivating and leading of collaborative healthcare teams.
