

NURS 7029 MENTAL HEALTH ASSESSMENT AND APPLICATION

Credit Points 10

Legacy Code 400217

Coordinator Tracy Stanbrook ([https://directory.westernsydney.edu.au/search/name/Tracy Stanbrook/](https://directory.westernsydney.edu.au/search/name/Tracy%20Stanbrook/))

Description Assessment is an essential component of the nurse/client interaction in mental health/psychiatric nursing. Effective nursing depends on comprehensive, accurate, systematic and continuous data collection. This assists the nurse and client to accurately identify and document critical client issues and formulate management strategies. This subject prepares the student in the area of mental health assessment, in identifying the factors that affect individual/family mental health and applying this knowledge to decisions about appropriate interventions.

School Nursing & Midwifery

Discipline Mental Health Nursing

Student Contribution Band HECS Band 1 10cp

Students must have some basic knowledge of mental health, mental illness, and assessment processes from previous subjects or workforce experiences.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Critically analyse mental health assessment and models of care within a therapeutic recovery framework
2. Examine and analyse the influences of cultural diversity for mental health assessment
3. Critically analyse legal, ethical and professional implications of mental health assessment and documentation including the aspects of mental health recovery

4. Conduct a comprehensive mental health nursing assessment with related documentation to provide holistic consumer centred care.
5. Collaborate with the client, family and others to develop professional therapeutic relationships for decision-making processes

Subject Content

1. Overview of Mental Health Nursing Assessment
2. Principles of Assessment
 - meaning, process and mechanics of assessment
 - The assessment interview: principles
 - dynamics of The interview
 - observation of behaviour
 - The history and pathways to effective planning
3. Specific Interview Techniques
 - collaboration in assessment
 - strengths model of assessment
 - culture and assessment
 - mental state Examination
 - The family in assessment
 - assessment of relationships problems
 - assessment of The environment
 - exploring psychosis
 - Risk of violence
 - Victimisation
 - substance Abuse
 - neurological Examination
 - needs assessment
 - assessment of mood (including Risk of suicide)
 - assessment of personality Disorder
 - assessment of anxiety
4. Documentation
 - moral and Ethical Issues
 - The whole person
5. Documentation of assessment and care plan

Special Requirements
