

ARCH 3006 URBAN DESIGN

Credit Points 10

Legacy Code 102070

Coordinator Awais Piracha ([https://directory.westernsydney.edu.au/search/name/Awais Piracha/](https://directory.westernsydney.edu.au/search/name/Awais%20Piracha/))

Description The subject aims to provide students with an understanding of the nature, role and relevance of urban design. It will examine the issue of urban design at both the micro and macro scale. It also aims to promote awareness of, and sensitivity to, design considerations, and to enable students to critically evaluate urban spaces and places. A key feature of the course will be the development of the graphical communication skills of students.

School Social Sciences

Discipline Urban Design and Regional Planning

Student Contribution Band HECS Band 2 10cp

Level Undergraduate Level 3 subject

Equivalent Subjects ARCH 3001 - An Introduction to Urban Design LGYA 1333 - Local Planning

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Understand the issues and concepts used by urban design professionals;
2. Develop design criteria and plans for public spaces;
3. Identify cultural heritage criteria in urban design, and address issues for appropriate protection and/or development of heritage;
4. Determine the environmental impacts of urban design, and address issues for appropriate environmental mitigation and/or enhancement;
5. Determine the social contexts of urban design, and address issues of social justice and community empowerment.

Subject Content

Urban utopias: garden cities to new urbanism
 Importance of streetscape design and neighbourhood character
 Topography, social context, history and design
 The environmental impacts of urban design
 Designing public realms: congregation and assembly
 Designing boundaries: exclusive and inclusive design
 Designing across the public / private binary
 Designing transit spaces: assisting with flows and routes
 Defensive spaces
 Crime prevention through design
