BEHV 1024 APPLIED PSYCHOLOGY

Credit Points 10

Legacy Code 102706

Coordinator Alana Weithaler (https://directory.westernsydney.edu.au/search/name/Alana Weithaler/)

Description Psychology is defined as the science of human behaviour and mental processes. Psychological theories aim to explain diverse aspects of everyday human experience and behaviour and are applied in diverse social, organisational and professional settings. In this subject, students explore key professional applications of psychological inquiry and how psychological research and theory can be used to analyse and applied to contemporary issues that influence individuals, groups and communities. Students are encouraged to evaluate the different ways psychological research is communicated.
