

DESN 1008 GRAPHIC DESIGN: PROCESS AND PRACTICE (WSTC)

Credit Points 20

Legacy Code 700194

Coordinator Ben Fletcher ([https://directory.westernsydney.edu.au/search/name/Ben Fletcher/](https://directory.westernsydney.edu.au/search/name/Ben+Fletcher/))

Description This subject enables students to further develop their understanding of the design process within the context of project briefs that introduce areas of graphic design practice that include branding and identity and information design. Students' understanding of a design brief, the client and a clearly defined audience will deepen. Students will be introduced to some design specific research skills, such as mood board and persona development, which will help them begin to build a toolkit of methods which they will use throughout their degree. Students will develop their design process and a greater awareness of the role of research in the generation of ideas. Students will be introduced to further lateral thinking techniques and encouraged to develop creative responses to the project briefs within appropriate constraints for both client and audience needs. Further key software will be introduced and supported by online resources and students will continue to develop their visual design skills in the fundamental areas of type, image and composition.

Level Undergraduate Level 1 subject

Pre-requisite(s) DESN 1010

Co-requisite(s) Course 6013 - Diploma in Design Bachelor of Graphic Design (Pathway to Teaching Secondary)

Course 6011 - Diploma in Design Bachelor of Design (Visual Communication)

Students enrolled in the combined Diploma Bachelor courses listed below must pass all College Preparatory units listed in the course structure before progressing to the Year 2 units

Equivalent Subjects DESN 1007 - Graphic Design Process and Practice

Restrictions

Students must be enrolled at Western Sydney University, The College. Students enrolled in extended diplomas must pass 40 credit points from the preparatory subjects listed in the program structure prior to enrolling in this University level subject.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Interpret the requirements of a design brief, the client and a clearly defined audience and apply these to their design work.
2. Develop a range of design specific research skills and apply such methods as part of their design process.

3. Apply lateral thinking and design thinking techniques to develop creative responses to project briefs.
4. Utilise a range of appropriate visual approaches in the fundamental areas of type, image and composition.
5. Utilise a wider range of features of Adobe CC as an industry standard software application for production.
6. Create a brand identify in response to a client brief.
7. Interpret and communicate complex information to a specific audience.

Subject Content

Branding:

1. What is branding ? it's more than just a logo.
2. What is a client? Defining the client ? precedent and documentary research skills.
3. What is an audience? Defining your audience
4. Mood boards and personas ? design specific research skills
5. Precedent research skills.
6. Brand personality, tone of voice etc.
7. Logo design.
8. Copywriting.

Introduction to information design:

1. Basic models of information design.
2. The role of purpose, audience and context within information design.
3. The taxonomy of organisation.
- 4.

Assessment

The following table summarises the standard assessment tasks for this subject. Please note this is a guide only. Assessment tasks are regularly updated, where there is a difference your Learning Guide takes precedence.

Type	Length	Percent	Threshold	Individual/ Group Task
Applied Project	Design practice therefore no length / duration	20	N	Group
Professional Task	Research 20% Development 20% Design practice therefore no length / duration	40	N	Individual
Practical	Research 20% Development 20% Design practice therefore no length / duration	40	N	Individual

Teaching Periods

Term 1 (2024)

Nirimba Education Precinct

On-site
