Description Applied Project (Finance and Property) is the integrating capstone subject, which brings together the skills that property students have developed during the course in preparing a high quality professional report in the finance or property industry. The subject encourages property students to demonstrate their ability to solve multi-disciplinary problems in relation to current and future issues that affect the finance or property sectors. The subject will also allow students to critically evaluate issues in their industry to determine and assess potential industry implications. The topics are determined from year to year by discussions between the individual student, the subject coordinator and the student's chosen supervisor.
