

HUMN 3041 GEOGRAPHIES OF MIGRATION

Credit Points 10

Legacy Code 101694

Coordinator Cameron McAuliffe ([https://directory.westernsydney.edu.au/search/name/Cameron McAuliffe/](https://directory.westernsydney.edu.au/search/name/Cameron%20McAuliffe/))

Description An international and cross-institutional discussion of immigration and settlement. Covering the theory and experience of immigration. Considers the international and national regulation of immigration and settlement policies, as well as refugee policy. Case studies are from Australia and Canada, and Singapore. Within mixed tutorial groups (with students from Singapore, Vancouver & Sydney) students will exchange experiences and opinions of immigration.

Level Undergraduate Level 3 subject

Restrictions

Successful completion of 80 credit points.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Construct case studies and files on the impacts of international migration, drawing upon statistics, experiences, visual material and other technologies
2. Summarise, contrast and critically analyse theories of international migration
3. Integrate theories of immigration with statistics, field data and personal experiences
4. Relate international migration to the forces and theory of globalisation and population movement
5. Critically evaluate the competing political arguments regarding migration and its impacts
6. Relate political arguments regarding migration to their own personal experiences (and those of their peers)
7. Develop a tolerance and appreciation of cultural difference within cities of immigrant reception
8. Develop a sense of international co-operation and citizenship, and establish enduring links with peers in Singapore (The National University of Singapore (NUS)) and Vancouver (The University of British Columbia (UBC))

Subject Content

Migration types and drives
