

LAWS 3063 PUBLIC INTERNATIONAL LAW

Credit Points 10

Legacy Code 200653

Coordinator Manuel Ventura ([https://directory.westernsydney.edu.au/search/name/Manuel Ventura/](https://directory.westernsydney.edu.au/search/name/Manuel%20Ventura/))

Description This subject lays the foundation for an understanding of the international system of law, how it works and its relationship with domestic Australian law. It will challenge students to critically analyse the system and suggest ways in which the rules and principles can and should develop in the future in order to accommodate the changing needs and values of the international community of nations. It also represents the foundation for students to move on to the study of other International Law subjects offered by the School of Law.

Level Undergraduate Level 3 subject

Pre-requisite(s) LAWS 2008

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Demonstrate a comprehensive grasp of the fundamental norms of public international law, including the provisions of the subjected Nations Charter, Statute of the International Court of Justice, and Vienna Convention on the Law of Treaties, as well as significant customary international law principles and jurisprudence of relevant international Courts.
2. Critically evaluate the principal institutions of the international legal system and explain their procedures at the international level and the principle 'sources' of law that they apply in resolving disputes.
3. Describe the major differences between international and national law.
4. Assess the major challenges/weaknesses/effectiveness to/of public international law.
5. Apply principles of public international law to contemporary issues and in problem solving.
6. Research develop, refine and produce written essays that demonstrate clear, well structured, appropriately referenced, critical analysis and arguments about salient points of international law.
