

MEDI 7061 HYSTERECTOMY

Credit Points 10

Legacy Code 401315

Coordinator Harry Merkur ([https://directory.westernsydney.edu.au/search/name/Harry Merkur/](https://directory.westernsydney.edu.au/search/name/Harry%20Merkur/))

Description This is an alternate subject in Year 2 of the Master of Surgery (Advanced Gynaecological Surgery) course. Students undertaking this subject will be expected to explore aspects of hysterectomy through various approaches in different clinical and pathological settings. This subject will enhance their ability to develop a foundation for improving their skills and achieving competency at hysterectomy, particularly utilising minimally invasive techniques. This subject will allow students to explore the rationale behind decisions to perform a hysterectomy, the nuances of surgical techniques used in a safe manner. It will allow an appreciation of the pre-operative and post-operative issues to ensure optimal patient outcomes.

School Medicine

Discipline Obstetrics and Gynaecology

Student Contribution Band HECS Band 3 10cp

Check your fees via the Fees (https://www.westernsydney.edu.au/currentstudents/current_students/fees/) page.

Level Postgraduate Coursework Level 7 subject

Pre-requisite(s) MEDI 7046

Equivalent Subjects MEDI 7019 Laparoscopic Hysterectomy

Restrictions

Students must be enrolled in 4770 Master of Surgery (Advanced Gynaecological Surgery) or 4690 Master of Surgery in Advanced Gynaecological Surgery

Assumed Knowledge

All students are expected to have a knowledge base commensurate with a level of an Advanced Trainee or Specialist in Obstetrics & Gynaecology (RANZCOG or other accredited college) and satisfactory completion of the Graduate Diploma in Advanced Gynaecological Surgery [ie, Year 1 of the Master of Surgery (Advanced Gynaecological Surgery) program].

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Evaluate surgical principles involved in performing hysterectomy, particularly focusing on minimally invasive techniques.
2. Effectively diagnose and manage surgical complications with respect to hysterectomy
3. Critically assess important factors in pre-operative and post-operative care when performing hysterectomy
4. Critically review the medical literature on hysterectomy techniques and strategies to minimise and manage complications

Subject Content

1. Surgical principles of hysterectomy, particularly focusing on minimally invasive techniques
2. Surgical techniques used at hysterectomy to prevent complications
3. Pre-operative and post-operative issues relevant to hysterectomy

4. Review the medical literature on hysterectomy techniques and strategies to minimise and manage complications

Assessment

The following table summarises the standard assessment tasks for this subject. Please note this is a guide only. Assessment tasks are regularly updated, where there is a difference your Learning Guide takes precedence.

Type	Length	Percent	Threshold	Individual/ Group Task
Literature Review	5,000 words in total: 1a. 4,000 words (SLOs 1, 3, 4); 1b. ~ 1,000 words (SLO 2, 3)	100	N	Individual
