

PUBH 3003 CONTEMPORARY ISSUES IN PUBLIC HEALTH

Credit Points 10

Legacy Code 401194

Coordinator Catharine Fleming ([https://directory.westernsydney.edu.au/search/name/Catharine Fleming/](https://directory.westernsydney.edu.au/search/name/Catharine+Fleming/))

Description This subject focuses on contemporary issues in public health. These priority concerns include chronic and age-related disease, communicable disease, mental health, sexual and reproductive health, child and maternal health, indigenous health, migrant health and environmental health. You will bring together your knowledge in public health, epidemiology, sociology and economics to identify and evaluate social and environmental factors that affect these health issues. By evaluating effectiveness of current public policy you will make recommendations for policy and program development to improve outcomes for contemporary health issues. These topics will be explored in national and international contexts.
