

# TEAC 3037 ENGAGING IN THE PROFESSION

**Credit Points** 10

**Legacy Code** 102755

**Coordinator** Paul Rooney (<https://directory.westernsydney.edu.au/search/name/Paul Rooney/>)

**Description** The subject is only offered to students enrolled in the Bachelor of Education (Primary) Aboriginal and Torres Strait Islander Education program. Students need to have a variety of experiences that are set in the context of their future profession. Through these experiences they need to draw together, as a capstone, all the previous subjects in the course, integrating them through a well-balanced program that allows the students to refine their skills as beginning teachers. This gives them opportunity to reflect on the processes involved, identify their competencies and assist the school by recognising potential issues and assisting in implementation of the resulting praxis. This subject includes all areas of foundations and curriculum complementing a final practicum experience that will show the interrelationship between theory and practice. It also addresses issues that assist in the development of the individual student toward their transition into teaching. Students will produce a professional learning portfolio in this subject to demonstrate achievement of the Graduate Teacher Standards. The learning portfolio will enable students to reflect deeply on their emerging skills and understanding, towards development of a critical perspective of their practice as a teacher.

**School** Education

**Discipline** Teacher Education: Primary

**Student Contribution Band** HECS Band 1 10cp

Check your fees via the Fees ([https://www.westernsydney.edu.au/currentstudents/current\\_students/fees/](https://www.westernsydney.edu.au/currentstudents/current_students/fees/)) page.

**Level** Undergraduate Level 3 subject

**Equivalent Subjects** LGYA 1496 - Engaging the Profession - (AREP)

## Restrictions

Students must be enrolled in the 1717 Bachelor of Education (Primary) Aboriginal and Torres Strait Islander Education.

## Learning Outcomes

On successful completion of this subject, students should be able to:

1. Explain the importance of and implement evidence-based practice in their teaching;
2. Investigate classroom and school environments;
3. Design an integrated three-week unit of work;
4. Select appropriate resources, including ICTs, when designing curriculum and learning experiences;
5. Reflect on their school-based experiences with a view to enhancing their teaching practice and understanding of the relationship between theory and practice;
6. Develop a teaching portfolio that demonstrates their teaching philosophy, professional learning, experience and achievement of the Graduate Teacher Standards;
7. Utilise ICT skills in the preparation of assessment tasks.
