

# MANAGEMENT, MAJOR (0136)

Western Sydney University Major Code: 0136

Previous Code: SP2006.1

## Available to students in other Western Sydney University

**Programs:** Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

## Handbook summary 2017 - 2024

This major critically examines strategic management processes in various business, industry and economic contexts. It also explores the processes and challenges encountered by leaders in contemporary organisations, taking into account rapidly changing environments with a focus on quality management, risk management, and performance measurement and benchmarking. Students actively participate in experiential learning focussing on strategic leadership, visioning, situation analysis, objective setting and evaluation. Students apply current models and theories to solving industry-specific problems and scenarios.

## Handbook summary 2025

This major examines management processes in various business, industry and economic contexts. It explores the challenges encountered by leaders in contemporary organisations, taking into account rapidly changing environments with a focus on global markets, sustainability and strategic decision-making. Students actively engage in experiential learning with a focus on project management, compliance management, enterprise governance, and innovation in digital technology. To ensure authentic learning, students apply relevant models and theories to solving current business problems in dynamic scenarios.
