Effective from: 2024

Approved Abbreviation: BEd(Sec)

Western Sydney University Program Code: 1939

AQF Level: 7

CRICOS Code: 114981K

This program applies to students who commenced in Spring 2024 or later.

The Bachelor of Education (Secondary) prepares graduates to teach across secondary schools nationally and internationally. The degree provides deep engagement in secondary education, focusing on innovative and evidence-based approaches to teaching and learning and the development of strong pedagogical content knowledge. It prepares students for their teaching career by emphasising pedagogical approaches and culturally responsive teaching practices that enable diverse learners to access learning experiences, effective classroom management practices, and using assessment and feedback to guide and enhance student learning. It provides opportunities to study two teaching majors across all Key Learning Areas in the secondary curriculum and includes 80 days of professional experience in schools. In addition to the secondary teaching areas, there are opportunities to specialise in EALD teaching and a pathway to postgraduate specialisation in inclusive education.

The Diploma in Educational Studies (Secondary) and Associate Degree in Educational Studies (Secondary) are exit points.

Program Logic

The Program Logic is embedded throughout all Initial Teacher Education programs at Western Sydney University. It explains how each subject contributes to the journey to become a Graduate Teacher. The Program Logic includes three phases: Foundation, Development and Transition. In each of these phases, pre-service teachers develop essential knowledge and skills by learning about evidence-based pedagogies and practices, enabling their successful transition to teaching.

Foundation: Pre-service teachers will develop fundamental knowledge, skills, and attributes to support the beginning of their journey to become a teacher.

Development: Pre-service teachers will strengthen their pedagogical content knowledge, understanding of classroom management, and evidence-based pedagogical practices.

Transition: Pre-service teachers will consolidate the knowledge, skills, and attributes required for success as a Graduate Teacher, using evidence to inform and strengthen pedagogical practice.
