

GRADUATE DIPLOMA IN PROJECT MANAGEMENT (3786)

Western Sydney University Program Code: 3786

AQF Level: 8

CRICOS Code: 105591K

Program Status: Current

This program applies to students who commenced in 2021 or later.

Handbook Summary 2021-2024

This program is aimed at preparing students for a future workforce by cultivating their competencies, knowledge and application of key project management concepts and practices in various related professions. It is expected that graduates from the program will be skilful in customising a domain specific project management life cycle and developing comprehensive project plans involving cost and quality control, managing risks and stakeholders in addition to developing efficient schedules while being able to act as effective communicators within a project team setting. Students have the option to graduate with core project management skills only (Graduate Certificate) or to continue to progress with a Masters degree.

Handbook Summary 2025

This program aims to prepare students for a future workforce in the dynamic and demanding field of project management by equipping them with essential knowledge, skills and competencies in key project management concepts and practices in various related professions.

Graduates will possess the capabilities to consider project management life cycles for specific domains, create project plans involving effective control on scope, time, cost and quality, manage resources, procurement, risks, stakeholders, and communications in project settings, and coordinate all elements of a project to seek project success with predefined goals being met.

Graduates of this program are suitable candidates for project management-oriented jobs within dynamic sectors such as engineering, construction, information technology, healthcare, and beyond.

Study Mode

Full-time - 1.5 years, Part-time - 3 years
