Credit Points 10

Coordinator Gabriela Zabala ([https://directory.westernsydney.edu.au/search/name/Gabriela Zabala/](https://directory.westernsydney.edu.au/search/name/Gabriela%20Zabala/))

Description Contemporary Australian society is dynamic and diverse, influenced by an increasingly interconnected world where international trade, foreign policy, digital communication and flows of migrants and cultures across borders appear to undermine the importance of national communities and identities. Despite this, everyday life is still profoundly influenced by the decisions which national governments make and the powers they exercise. This subject explores Australia's history, peoples, liberal democratic tradition and contemporary challenges and issues we face as members of the national and global community. You will identify and explore established narratives, connect past developments with present issues and examine specific events within the broader context of world history. You will also develop the skills to further understand broader influences on contemporary Australia and your personal lived experiences.
