

HLTH 7002 BUILDING ORGANISATIONAL CAPACITY IN HEALTH CARE

Credit Points 10

Legacy Code 400846

Coordinator Christine Walker (<https://directory.westernsydney.edu.au/search/name/Christine Walker/>)

Description The concept, form and structure of health care organisations are explored. Organisational theory is used to analyse contemporary health care structures. Factors which influence organisational design, function and effectiveness are discussed including: organisational behaviour, strategy, culture, power and politics, technology, sustainability and effectiveness. A major focus is planning for strategic organisational development to meet the challenges of rapid change and the need for performance improvements in patient care delivery. Concepts related to the strategic development of workforce capacity in the health care arena considered through the application of theories including the learning organisation. Leadership is examined with emphasis on change management.

Restrictions

Students must be enrolled in a postgraduate program.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Assess the impact of organisational culture, power, politics and technology on readiness for change in health care organisations.
2. Critically analyse organisational strategy, design and structure of health care organisations by applying organisational theory.
3. Investigate how effective change leadership can lead to improved organisational capacity and performance.
4. Critically reflect on and critique health care organisational capacity building in a rapidly changing environment.
5. Recommend strategies for workforce capacity development within a contemporary health care setting.
