## Assumed Knowledge

The student should be familiar with research design and procedures, as taught in subjects such as 101854 Language and Linguistics Research methods or be concurrently undertaking a research method subject.

## Learning Outcomes

On successful completion of this subject, students should be able to:

1. Develop and present a research project proposal;
2. Demonstrate understanding of the leading research in their chosen field of investigation;
3. Put forward an hypothesis or set of testable propositions;
4. Collect and analyse suitable data to test the hypothesis;
5. Draw inferences about the importance of the findings.
6. Students undertaking a research project will be able to collect and analyse suitable data to test the hypothesis.
7. Students undertaking a research project will be able to draw inferences about the importance of the findings.

## Subject Content

The Internship requires:

1. Observation of classes in a range of different English language teaching settings;

2. A service learning component where student participates in many aspects of the work in TESOL organisations eg undertakes team-teaching or works as teachers aid;
3. Optional supervised TESOL practice teaching or its equivalent. The content of this subject will vary according to the field and topic of the special project.

Content will be dictated by the individual project topic and design, and undertaken under the guidance and supervision of a full time member of staff with the appropriate academic background.

## Assessment

The following table summarises the standard assessment tasks for this subject. Please note this is a guide only. Assessment tasks are regularly updated, where there is a difference your Learning Guide takes precedence.

Type	Length	Percent	Threshold	Individual/ Group Task	Mandatory
Proposal	1000 words	15	N	Individual	N
Essay	5000 words	85	N	Individual	N

Teaching Periods

## Spring (2025)
