

# NATS 0020 SKILLS FOR HEALTH SCIENCE (WSTC)

**Credit Points** 5

**Legacy Code** 900112

**Coordinator** Dane Couter (<https://directory.westernsydney.edu.au/search/name/Dane Couter/>)

**Description** This subject is designed to give students skills in health science to become successful independent reflective learners in health sciences. It introduces students to a range of theories and concepts to facilitate the development of referencing conventions used in health science as well as practical skills and personal attitudes necessary for success in tertiary study and eLearning. Emphasis is placed on developing the key competencies of inquiry - analysing, organising, researching and communicating information as well as problem solving.

**School** Western Sydney The College

**Discipline** Natural and Physical Sciences, Not Elsewhere Classified.

**Student Contribution Band** HECS Band 2 5cp

Check your fees via the Fees ([https://www.westernsydney.edu.au/currentstudents/current\\_students/fees/](https://www.westernsydney.edu.au/currentstudents/current_students/fees/)) page.

**Level** Undergraduate Level 0 Preparatory subject

## Restrictions

This subject is only available to College students enrolled in the Undergraduate Preparation Programs.

## Learning Outcomes

On successful completion of this subject, students should be able to:

1. Identify and apply independent learning strategies to demonstrate knowledge on a health topic.
2. Communicate effectively using critical reading and writing skills within a health context using APA referencing.
3. Use technology, and a range of eLearning skills in assessment tasks to demonstrate understanding of health topics.
4. Apply critical thinking, and analyse information using research skills, to make informed decisions.
5. Apply the process of reflection to learning experiences.
6. Demonstrate an understanding of the requirements for successful presentations and develop a visual representation of research using appropriate language style.

## Subject Content
